

NOTICE

GuideStar has been informed by the IRS of processing errors on IRS Forms 990 filed electronically between January 1, 2009, and December 3, 2010, for form year 2008. These processing errors resulted in inaccurate data appearing on the scanned images of the affected returns that are posted on GuideStar and do not reflect the information filed with the IRS.

These errors include:

- Part III, line 1, organization's mission description—may not reflect what was originally submitted by the nonprofit organization.
- Part VIII, line 8a, gross income for special events—values may have been transposed.
- Part IX, line 7c, other salaries and wages, management and general expenses—may show a blank where a value was originally reported.
- Schedule D, Part V, line 3a(ii), endowment funds and possession by related organizations—checkbox values may have been transposed.

GuideStar is working with the IRS to obtain a corrected copy of its form year 2008 Form 990. GuideStar will replace this Form 990 if, and when, the accurate return is made available from the IRS.

Connect Programs - Connected Nation has pioneered the nation's most comprehensive statewide broadband expansion model focused on both the supply (deployment) and the demand (adoption) sides of the broadband equation. Connected Nation's successful model consists of three primary components: 1. Broadband infrastructure mapping - Connected Nation's comprehensive approach to broadband expansion begins with an inventory of existing broadband service providing a detailed picture of where broadband is and the gaps needing to be addressed. Connected Nation's mapping department works closely with broadband providers to identify broadband availability and develop trustworthy relationships. Connected Nation Mapping Initiatives are designed to inform and advance the understanding and utilization of broadband services in the nation. The maps and analysis that Connected Nation produces for any given state or region are products that are imperative to good policy and informed business planning. These tools are advancing the understanding of the nation's broadband landscape and the needs of those in this country without broadband service available. 2. Comprehensive research on broadband use and barriers to broadband adoption - Connected Nation conducts extensive survey research to better understand the barriers to broadband technologies and applications within a given community. This research also helps identify pent-up demand for prospective services in communities that private broadband service providers may not yet recognize. All of this information is essential in developing broadband capacity build-out plans within the communities served by Connected Nation broadband maps and custom mapping analyses. 3. Launching statewide grassroots technology planning and awareness campaign that consists of local "e-Community Leadership Teams" in each county. Connected Nation uses grassroots techniques through our "e-Community Strategies" effort to pinpoint underserved areas and create strategic technology plans for these locations. We work with community leadership to address communities challenges related to technology growth and implement the necessary programs to overcome these obstacles. eCommunity Strategies helps communities to effectively and efficiently leverage technology by identifying best technology practices and how to acquire such technology.

4b (Code) (Expenses \$ 1,379,986 including grants of \$) (Revenue \$)

Computers 4 Kids - A Connected Nation developed program - is designed to increase the use and ownership of computers and related devices that incite demand for broadband. No where is this more demonstrated than in its programming aimed at improving computer ownership in low adoption areas and across various disenfranchised populations. Computers 4 Kids is an innovative project that bring together public and private partners to help disadvantaged children and their families join the Information Age. The program is the most comprehensive initiative of its kind undertaken by any state as it is intended to help underprivileged individuals overcome the obstacles associated with the digital divide. This is accomplished by placing computers in the hands of disadvantaged populations so that they have access to abundant technological resources and can perform basic computing functions. Computers may be placed directly in a family's home, given to an individual child or placed in community centers that provide services to underprivileged families.

4c (Code) (Expenses \$ 83,603 including grants of \$) (Revenue \$)

Gates Foundation's Opportunity Online - The Opportunity Online broadband grant program is an innovative grant program designed by the Bill & Melinda Gates Foundation to directly improve library connectivity across the country. The goal of the Opportunity Online broadband grant program is to help states create and implement strategies that will increase public library Internet connections to at least 1.5 Mbps, or faster wherever feasible, and continuously improve connection speeds as communities' needs grow. Working with selected state library agencies, Connected Nation will produce highly customized and relevant Summits that engage librarians, local leaders and statewide stakeholders and support the preparation of a statewide strategy that achieves improved and sustained connectivity for all state libraries.
